To our visitors...

We're glad you chose to spend time with us today. Our services are designed around biblical truths of the Christian faith in a way that speaks to everyone - from those checking out church for the first time, or coming back after a long time, to committed Christians.

JUMP UPDATE

"Adopt the pace of nature; her secret is patience."

Ralph Waldo Emerson

As you can see, the foyer renovation took a major step forward this week with the application of paint. If you haven't taken a peek at the new look in Kids Cove, wander on down and experience the "wow" in progress.

Behind the façade of the white picket fence, people are living what Thoreau called "lives of quiet desperation".

Join us on Sundays this September - even if you don't live on Wisteria Lane.

Creation & Evolution

Brad Watson & Dr. Bill McConkey

Bill McConkey was born and educated in Northern Ireland where he taught for a number of years at Queen's University. In 1970, he brought his research group to the University of Windsor where he was appointed a full professor in the Physics Department.

Bill's research has involved processes that occur in planetary atmospheres or astrophysical sources and has published over 160 papers. He has spent almost 5 years working at NASA's Jet Propulsion Lab in California as a Senior Fellow and is currently involved in joint projects with colleagues there.

A recipient of a lifetime achievement award from the Canadian Association of Physicists and the Will Allis prize of the American Physical Society, Bill received the Order of Ontario in 2007 for putting Windsor on the world physics map.

But even more impressive is Bill's heart for Christ. For decades, he and his wife Maureen have been faculty advisors for InterVarsity Christian Fellowship at the UofW. They have four adult children and have been a part of our Lakeshore family for five years. Bill loves exploring the universe, finding glimpses of God and pointing people to Him.
